Devices / Lock ons

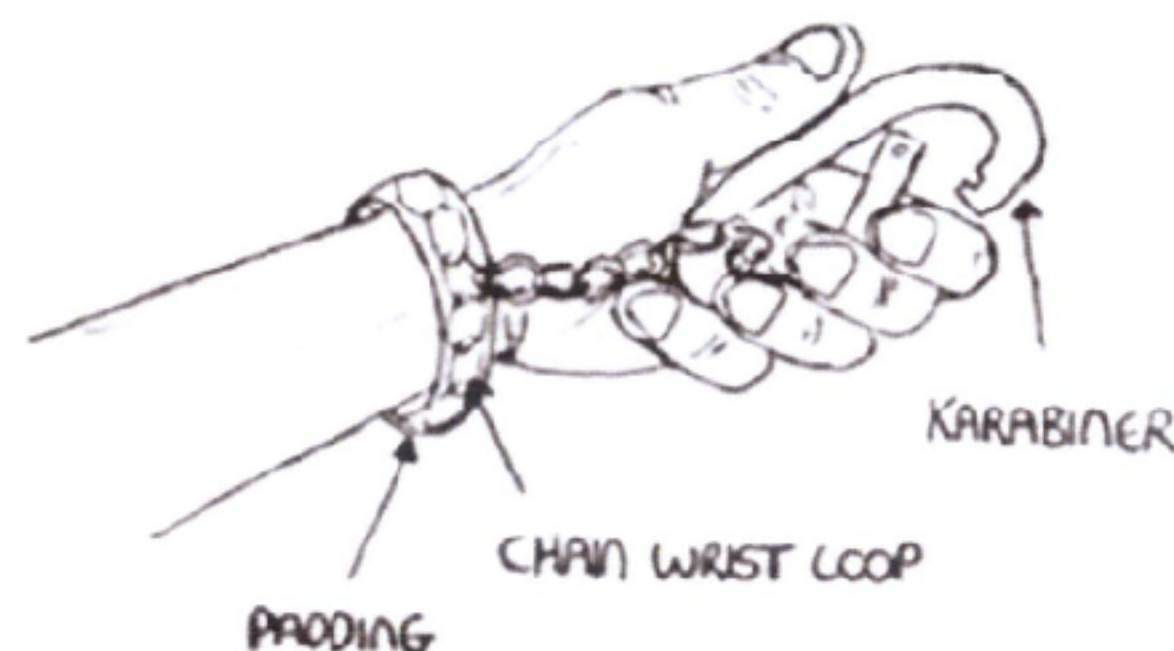

Lock ons – delay mechanism to increase the length of time and resources used to remove them

Lock ons attract media interest

Variety of shapes and sizes

Can be made from every day items, which in isolation may appear innocent, thereby allowing them to get such equipment to the location without arousing police suspicion

- Chains and padlocks
- Thumb cuffs
- Bicycle locks
- Arm tubes
- Tripods
- Dragons

Devices / Lock ons

The outer layer of plastic tubing is a layer of concrete which has been reinforced with barbed wire.

This image shows an arm tube that has been inserted into a tree log and padded out with expandable foam. Metal rods are running through the length of the log approximately two inches from the arm tube.
